ABOUT

Senior Software Developer with 10+ years of experience in Laravel and CodeIgniter, specializing in building scalable web applications, REST APIs, and system architecture. Experienced in leading development teams, mentoring engineers, and managing client communication. Skilled in cloud platforms including AWS and basic knowledge of Microsoft Azure. Passionate about performance optimization, automation, and integrating modern technologies like AI/ML into real-world applications.

SKILLS

- Backend & Programming:** PHP (Laravel, CodeIgniter), Ruby on Rails
- Frontend & UI:** React.js, jQuery, Bootstrap, HTML5, CSS3, JavaScript
- Databases & ORM:** MySQL, PostgreSQL, Eloquent ORM
- Scripting & Automation:** Python (AI/ML, automation), Shell scripting, Prompt Engineering
- Web & Server:** Apache, Nginx, REST API design, WebSocket, Microservices
- Message Queues & Orchestration:** Redis, Laravel Queues, Job Scheduling
- DevOps & Tools:** Git, Docker (basic), CI/CD pipelines
- Best Practices & Methodologies:** SDLC, Agile, Clean Code, Performance Optimization, Security Standards
- Cloud Platforms:** AWS (EC2, S3), Microsoft Azure (App Services, Virtual Machines, Deployment – basic)

EXPERIENCE

SOFTWARE DEVELOPER

2018 - Present

Headerlabs Infotech Pvt. Ltd.

As a Developer at Headerlabs Infotech Pvt Ltd, I work on diverse projects involving Laravel websites, mobile applications, REST APIs, GraphQL APIs, and a wide range of integrations for clients in the United States (USA).

Key Responsibilities and Achievements:

- Laravel Development:** Develop and maintain Laravel websites and mobile applications, ensuring high-quality, scalable, and maintainable code. Utilize Laravel features and best practices to deliver robust solutions.
- REST API & GraphQL API:** Design and implement RESTful and GraphQL APIs for seamless data exchange between systems. Maintain proper documentation for efficient communication.
- AWS Integration:** Configure and manage AWS EC2 instances, S3 buckets, and other AWS services for hosting, storage, and deployment of Laravel applications.
- Google Maps API Integration:** Implement location-based features and mapping functionalities using Google Maps APIs.
- Payment Gateway Integration:** Integrate Stripe for secure and reliable payment processing in web and mobile apps.
- Database Design & Optimization:** Design optimized database structures and relationships for efficient data storage and retrieval.
- FCM & Twilio Integration:** Implement Firebase Cloud Messaging (FCM) for push notifications and Twilio for SMS notifications, enhancing real-time communication with users.
- Server Configuration & Deployment:** Manage server configurations, Ubuntu environments, SSL certificates, and deployments to ensure smooth operation of Laravel applications.
- Version Control & Collaboration:** Use GitHub, GitLab, and Bitbucket for version control, enabling collaborative development and maintaining code integrity.
- Client Communication & Project Management:** Actively participate in client meetings, gather project requirements, provide updates, and deliver solutions that align with client expectations.

EDUCATION

B.Tech (Computer Sci. & Engg.)

Kurukshetra University (2014)

Diploma in Computer Engg.

SBTE, Haryana (2010)

PROJECTS

- cakeflowersgift.com
- keralagifts.in
- sendbestgift.com
- indiangiftsadda.com
- bakersoven.in
- cakestory.in
- bird-cpec.in
- mystaffup.com
- sustainabledevelopment.in
- mybucketpay.com
- hraspirin.com
- mentorandmatch.com
- deltawriter.com

- **Mentorship:** Guide and mentor junior developers, assign tasks, provide technical support, and ensure high-quality code delivery.

Notable Projects:

- hraspirin.com and mentorandmatch.com – Actively collaborated with the team, participated in client discussions, and implemented key features.

- **Deltawriter.com (AI/ML Project)** – Developed a system where users provide a blog title, and the AI generates unique blog content and posts it directly to their WordPress site automatically.

- **Monday.com App Development (In Progress)** – Building an app to create Google Calendar and Google Meeting events automatically based on Monday.com board data.

Additional Experience:

- Working with Ruby on Rails and React.js for web applications over the past 1.5 years

- Gained experience in AI/ML content generation, system automation, Google APIs, server administration, and cron job scheduling.

- This experience has strengthened my ability to communicate technical concepts effectively, manage projects independently, mentor team members, and deliver high-quality solutions aligned with client needs.

PHP WEB DEVELOPER

4/2016 - 1/2018

Vincit Softwares & Consulting Pvt. Ltd.

- As a PHP Web Developer at Vincit Softwares & Consulting Pvt. Ltd., I was responsible for undertaking a variety of projects acquired through service platforms like Upwork and Freelance. During my tenure, my primary focus was on working with WordPress websites, handling short changes, and performing maintenance tasks. Here are the key responsibilities and activities I engaged in:

- **WordPress and WooCommerce Development:** Collaborated with clients to understand their requirements and implemented changes or modifications to their existing WooCommerce-based e-commerce websites. This involved tasks such as product catalog management, payment gateway integration, order processing, and customizing the user experience.

- **Maintenance and Support:** Assumed responsibility for ongoing maintenance and support of WordPress websites. Conducted routine checks, implemented security measures, and performed necessary updates to ensure the smooth functioning of websites.

PHP DEVELOPER

9/2014 - 4/2016

Virtual Pages Pvt. Ltd.

Started my career developing PHP-based content websites and WordPress projects. Gained experience in e-commerce, semi-government projects, and team collaboration.

Key Highlights:

- Developed and maintained PHP websites; implemented efficient solutions.
- Worked on e-commerce site <https://bakersoven.in/> (product listings, cart, payments).
- Built WordPress site <https://birdcpec.nabard.org/>.
- Handled semi-government projects: CII (<https://sustainabledevelopment.in/>) & IDPL (<http://www.idplindia.in/>).
- Collaborated with a small team and delivered projects on time.
